CONTAIN

Greeting Letter vii

Plenary reports 1

Sergey Ablameyko, *Sergey Abramov*, *Vladimir Anishchanka*, *Nikolay Paramonov*, *Oleg Tchij*. SKIF supercomputers and their applications 3

Larisa Lesko, Galina Zorko, Nataliya Shishkina. About cooperation in the field of information technology and publishing 8

Oleg Vorobyov. Eventological principles and eventological H-theorem 13

Section #1. Information and Communication Technologies 17

Ismayil Ibragimov, *Geray Kengerlinskiy*. Conception of state information resources storage of Azerbaijan 19

Ismayil Ibragimov, *Geray Kengerlinskiy*. Distributed net technology in ACS of water-intake knots of Oguz-Gabala water-pipe 23

Timur Vezirov. Theory and practice of use of information and communication technologies in the pedagogical formation 27

Beibut Kulpeshov. On problem of expressiveness of database queries 30

Alexander Vikentiev, *Ruslan Vikentiev*. Self-descriptiveness and distance on experts' propositions in multi-valued logics and adaptation algorithms 34

Senan Jafarov, *Mehriban Mammadova*. SCADA management of technological process of dispensing 38

Magomed Surhaev. Formation of a new educational environment by ICT means 42

Zari Dzalilov, *Iradj Ouveysi*. On the implementation of dynamic reconfiguration in telecommunication networks 44

Zari Dzalilov, *Iradj Ouveysi*. Challenging issues in dynamic reconfiguration of telecommunication networks 48

Yadigar Imamverdiyev, *Lala Karimova*, *Vugar Musayev*, *James Wayman*. Testing biometric systems against spoofing attacks 52

Bayram Ibrahimov, *Shukur Mammadov*. Method of calculation of the signaling traffic in network common channel system signaling at lower layer 56

Fargana Abdullayeva, *Yadigar Imamverdiyev*, *Vugar Musayev*, *James Wayman*. Analysis of security vulnerabilities in biometric systems 60

Sadegh Derakshandeh, Yadigar Imamverdiyev. Fuzzy majority modelling of information security risks 64

Hamid Zargari Asl. Social network modelling: retrieval correlated graphs by mobile phone's chronological billing files 67

Ramiz Shikhaliyev, *Yadigar Imamverdiyev*, *Vugar Musayev*, *James Wayman*. Analysis of the biometric systems security evaluation methodologies 71

Rasim Alguliyev, *Tahmasib Fataliyev.* About necessity of realization of the concept electronic-science 75

Amiraslan Aliyev, *Aytan Huseynova.* On the approaches of increasing the productivity of the corporal net and a criterion of data updating in cash-servers 78

Rasim Alguliyev, Rashid Alekberov, Tural Zerbaliyev. Aspects of creation of the super computer center for solution of the complex problems demanding great calculation resources in Azerbaijan 81

Saadat Nazirova. Improvement of anti spam technology with the help of an estimation of reliability of the sender 85

Saadat Nazirova. New anti spam methods 89

Rahila Abdullayeva. Method of the configuration analysis for designing industrial information systems 92

Rauf Fatullayev, Sevinj Mammadova, Abulfat Fatullayev. Statistical analysis of the factors influencing the translation quality of the Dilmanc MT system 96

Yedilkhan Amirgaliyev. Methods of modelling information system for pattern recognition and classification 100

Yedilkhan Amirgaliyev, Gulzhan Jumatova. Integration of information systems of the enterprises with use of the web-services concept by java technology 104

Yedilkhan Amirgaliyev, Rustam Musabaev. Algorithms of phonemes classification in field of compilative speech synthesis systems realization 108

Rahile Hasanova. Application of page rank algorithm in evaluation of scientific articles 112

Rabiyat Magomedova. Methodic of the differentiated training organization for the decision of mathematical problems with using ICT 114

Sardar Gasimov, Ibrahim Ibrahimov. Analysis of sentences and words used in Azerbaijani texts 117

Sardar Shabanov. Complex estimating of the scientific activities of the researchers 120

Meherrem Ibrahimov. Improvement of the quality of electronic contacts on the basis of complete and partial group control 122

Timur Vezirov, Shirvani Bakmayev, Telman Vezirov. Technology of learning development and realization of electronic educational-methodical models for the future teachers of mathematics and informatics 125

Shirvani Bakmaev. About the teacher's work of preprofile preparation of pupils 127

Dmitry Bagayev, Artem Evsyakov. Portable system control of the educational robotic complex 133

Elshad Ismibeyli, Yusif Gaziyev. Analysis of numerical modeling programs of the microwave devices of telecommunication systems 137

Ramiz Aliguliyev. Ranking algorithm and its application for the document summarization 140

Vasif Nabiyev, Mustafa Ulutaş, Güzin Ulutaş. Estimation of image complexity for steganography and watermarking 144

Sagdi Formanov. Development of autonomous topological navigation of the transportation vehicles 148

Abulfat Fatullayev, Samir Shagavatov. Turkish-Azerbaijani translation module of Dilmanc MT system 150

Mais Farkhadov. The architecture of the open server for interactive information and service systems 154

Radiy Bilik, Nina Petukhova, Mais Farkhadov. Creation of mathematical models for research of the speech interface 155

Section #2. Intellectual Systems 157

Sergey Ablameyko, *Alexander Kryuchkov*, *Sergey Zolotoy*. Technologies for interpretation of remote sensing images and digital maps and their usage for applied tasks 159

Rauf Sadykhov, *Igor Frolov*, *Natallia Pavlyonok*. The techniques for creation of face identification systems based on SVM and HMM 163

Rauf Sadykhov, *Marina Lukashevich*. Texture segmentation of satellite images by neural networks approach 167

Hikmat Hasanov, *Tofig Suleymanov*, *Elena Gambarova*. Investigation of the design and use of artificial neural networks in the classification of remotely sensed images 171

Rahim Mammadov, *Timur Aliyev*. Maintenance of invariance of recognition of objects to linear changes of their images by the automated manufacture 175

Agil Huseynov. Creation of a knowledge base for search and designing of active Elements of flexible manufacturing systems 179

Kamil Aida-zade, *Samir Rustamov*. The principles of construction of the Azerbaijan speech recognition system 183

Mehdi Soltani. Basic program of development and application of information technology in educational system of Iran 187

Kamil Aida-zade, *Aida Sharifova*. Analysis of approaches to text to speech synthesis and their application to Azerbaijani language 191

Svetlana Eyubova, *Adalat Pashayev*, *Elkhan Sabziev*, *Goshgar Mammadov*. On the some problems of information system of the optimization in agriculture 195

Zarifa Guliyeva. Methods for translation modeling in the automatic text processing systems 199

Tofig Kazimov, *Shafagat Mahmudova*. Information identification system for identifying people by portrait photos 204

Gurban Abdullayev. Application of indistinct sets in FAM boring pipes for the intellectual the robot 208

Sabit Kerimov, *Elena Ragimova*. Decision of applied tasks with use neural networks 212

Daria Semenova. Eventological formalization of linguistic variable 216

Nigar Aliyeva, *Elviz Ismayilov*. Fuzzy approach to the structured method of recognition of printed and handwritten symbols 220

Vasif Nabiyev, *Asuman Günay*. Towards a biometric purpose image filter according to skin detection 224

Vasif Nabiyev, *Selda Bayrak*, *Arda Üstübioğlu*. Intelligent communication between hearing disabled people and visual disabled people 228

Vasif Nabiyev, Yasemin Bekiroğlu. Evaluation of similarity among human faces 232

Novruz Allahverdi, *Humar Kahramanli*. Extracting rules from neural networks using artificial immune systems 236

Cemal Köse, *Cevat İkibaş*. Extraction of coronary vessel structures in low quality X-ray angiogram images 240

Elena Goldenok, Kirill Goldenok. Two eventological asymptotic theorems 244

Ogtay Nusratov, *Punhan Seyidov*, *Sevinj Seyidova*. Diagnostics of failures of asynchronous electric motors by methods of the position-binary analysis 248

Dmitry Bagayev, Pavel Khrustalev. Program complex of the pattern recognition with the help neural networks – MIRANDA MP 252

Uzeyir Gurbanli. Application of analytical methods in risk management.....256

Irina Baranova. Bipartite set of random events method application in factorial analysis of complex systems 259

Efendi Nasibov. Clustering of bispectral index measurements data by using the fuzzy neighborhood relations.....263

Samir Rustamov, Aygun Saadova. On an approach to computer synthesis of Azerbaijan speech.....267

Aghamehdi Mehdialiyev. On the definition of character of nation on the basis proverbs and sayings with mathematical model 271

Fegan Aliyev, *Aghamehdi Mehdialiyev*, *Nurmammad Mammadov*, *Farhad Aliyev*. Development of mathematical model of intellectual building in Baku city 275

Rustam Musabaev. Solution of problems of sinooth concatenation of speech segments in field of speech synthesis systems realization.....279

Aristan Dzhusupov, *Nikolay Makarenko, Irina Popova, Gulzhanar Yelamanova*. Analysis of the modern condition problems of the recognition and classifications of the models algorithm monitoring not enough study deposits.....283

Nikolay Kartashev. Secure ways of clinical data delivery and presentation to remote specialist: the problem of choice.....287
